

Hillsborough road expected to remain closed two more days

Bay City News Service, 3-28-11

Crews performed emergency repairs on part of Woodridge Road in Hillsborough until 2 a.m. Sunday because of a minor landslide on Saturday morning, officials said.

The landslide forced the closing of part of Woodridge Road, and the section of road is slated to remain closed for at least the next two days, according to police.

The landslide happened Saturday morning near the 100 block of Woodridge Road, and no injuries or damaged structures were reported, police officers said.

The roadwork was necessary to prevent further damage and stabilize the roadway, according to Hillsborough Public Works.

Residents living south of 125 Woodridge Road should use Crystal Springs Road to reach their homes, and those living on Woodcrest Court should use Black Mountain Road, police said.

Alternative routes around the slide include Tartan Trail or Vista roads.

Hillsborough police officers are available to answer questions about the slide at (650) 375-7470.
