

Prelab Exercise
November 6, 2019
Laboratory 16 - Earthquakes
(to be done **before lab!**...refer to lab schedule)

Instructor	Arthur Reed	Name	_____
Class	Geology 301, Physical Geology Lab	Date	_____
Time	MW 7:30pm – 8:50pm	Point value	5 pts

Answer the following question(s) **and turn-in at the beginning of lab.**

There are how many types of “waves” generated from an earthquake and studied in this lab?

Write a brief one sentence description of each.

(Suggestion: see page 411 & fig 16.4)
